Consortium:	March 1 – 2, 2018
Conference:	March 2 – 4, 2018

Junior Faculty and Doctoral Consortium **\$295**

Academic Research Conference Early Bird Rate (until January 15, 2018) **\$595**

Academic Research Conference Regular Rate (after January 15, 2018) **\$795**

Reasons to join the conversation:

- A) **Dynamism:** The SEE is not only the fastest growing, but also the biggest conference in this space. Because of this, attendees get to interact and network with more diverse scholars, from different schools and different countries. Yes, almost 30% of the SEE attendees are international scholars!
- B) **Keynotes Speakers:** *Ed Freeman* and *Andy Hoffman* are remarkable scholars and thought-provoking speakers, so interacting with them is surely going to be a memorable experience.
- C) **Developmental:** SEE sessions are highly interactive, and with an average of 30 attendees/session, presenters receive substantive, thoughtful feedback.
- D) **Ease:** The entire conference and consortium are held in a hotel venue, which facilitates serendipitous interactions, private meetings, and network opportunities.
- E) **Location-Location-Location:** DC boasts 11 of the 19 Smithsonian Museums, including the National Air and Space Museum, Museum of National History, National Museum of American History and so many more. The best thing about them? Admission is FREE! You and your family can also visit Georgetown, the JFK sites, National Archives, etc. In fact, nowhere is riddled with espionage quite as much as Washington DC – and the *International Spy Museum* revels in it. The museum also puts its name to tours of the city's key spying sites – including the infamous Watergate Building and the former Soviet Embassy. Featuring video "briefings" from former intelligence officers, the tours are packed with intriguing Cold War tales and anecdotes.
- F) **Consortium:** The Junior Faculty & Doctoral Consortium (JFDC) features a favorable ratio of senior scholars to participants. Journal editors (e.g., JMS, AMP, SEJ, ET&P) will facilitate the JFDC with paper development sessions, and other workshops.

Mentors:

Oana Branzei – University of Western Ontario
Silvia Dorado – University of Rhode Island
Matthew Grimes – Indiana University
Tim Hargrave – Central Washington University
Desiree Pacheco – Portland State University
Tyge Payne – Texas Tech University
Jill Purdy – University of Washington - Tacoma
Theodore Waldron – Texas Tech University
Tyler Wry – Wharton, University of Pennsylvania

Sophie Bacq – Northeastern University
Jeff York – University of Colorado - Boulder

Organizing Committee:

Maritza Espina, Executive Director: mespina@suagm.edu
Gideon Markman, Founder: gideon.markman@colostate.edu
Matthew Grimes, Organizer: grimesma@indiana.edu
Tom Dean, Organizer: Tom.Dean@colostate.edu
Tyge Payne, Organizer: tyge.payne@ttu.edu
Mark Peterson, Organizer: markpete@uwyo.edu
